

Public Accounts Committee  
Ministry of Community Safety  
Appearance on October 1, 2026  
Requested Follow-up Information

Provincial Auditor's 2025 Report – Volume 2, Chapter 9, Corrections, Policing and Public Safety –  
Supporting the Mental Health of Correctional Workers

- Please provide the 2025 Employee Health and Safety Survey completion rate across the ministry overall, as well as the completion rate for each of the five adult facilities.
  - The Safety Survey transitioned from an annual to a biennial cycle in 2024. As a result, the most recent survey was conducted in 2024, with the next survey scheduled for November 2026. The results below reflect the 2024 survey completion rate for all staff.

|                                                                   | Number of Responses | Number of Employees | Response Rate |
|-------------------------------------------------------------------|---------------------|---------------------|---------------|
| Ministry of Community Safety                                      | 1035                | 2959                | 35%           |
| Pine Grove Correctional Centre                                    | 64                  | 212                 | 30.2%         |
| Prince Albert Correctional Centre/Reintegration Unit              | 70                  | 350                 | 20%           |
| Regina Correctional Centre/White Birch Remand/ Reintegration Unit | 68                  | 456                 | 14.9%         |
| Saskatchewan Hospital North Battleford                            | 19                  | 107                 | 17.8%         |
| Saskatoon Correctional Centre/ Urban Camp/Reintegration Units     | 137                 | 393                 | 34.9%         |
