Subject: I support public liquor
Date: Wednesday, June 08, 2016 3:21:04 PM

To the Standing Committee on Crowns and Central Agencies,

I am writing to tell you that I do not support the closure of 40 public liquor stores - this is clearly a means to hand off our valuable resource to private hands.

Instead of investing and improving public liquor stores, this government has made ruin of the selection and hours which has only made people angry - the classic recipe for gaining public support for privatization.

In a time where we need a much support in health care and education as possible, this decision to sell off these profitable stores is ridiculous.

Do the right thing and invest in our public liquor stores.

Thank you and I look forward to your response.
