Mr. Park,

Regarding the Standing Committee on Human Services is conducting public hearings to receive presentations and make recommendations to improve the rate of organ and tissue donation in Saskatchewan.

Please accept the following suggestions for the Committee to consider:

1. Assume all people will donate but provide the option to opt out.
2. Ensure that we have enough trained medical personnel and equipment in place to harvest the organs, transport them and implant them. This will avoid "wasting" the organs.
