			and government's priorities, such as those outlined in the Growth Plan. • The Ministry also met with representatives from these institutions to discuss the results of the Performance Framework reports, including successes and barriers. • As part of the Performance Framework reporting, starting in June 2022, in addition to providing data updates to their metrics and including targets, where applicable, institutions began providing high-level (green, yellow, red) assessments on the progress of their metrics to meet government priorities. • As an additional requirement of the Multi-Year Funding agreement, annual Multi-Year Funding Accountability reporting was required by all signatory institutions. This reporting was focused on demonstration of the impact of the \$60M in targeted funding provided by government

			over the first two years of the agreement. • Last year, as part of the extension of the current multi-year funding agreement, the Ministry required institutions to submit accountability plans that will outline the strategic actions they are taking in alignment with the Ministry's three goals. Institutions will report progress on these actions annually.
