By way of this letter the Ministry of Social Services is tabling information requested by the Public Accounts Committee on October 15, 2025. The information undertaken by the ministry during Public Accounts Committee is as follows:

1. Enhancements to the Program Standards Report Checklist.
2. Hotel vendors paid by the ministry in the 2022-23 and 2023-24 fiscal years on behalf of clients.

1. Enhancements to the Program Standards Report Checklist

The Program Standards Report was updated to address recommendations from the Provincial Auditor and questions were added in the areas of elopement, water temperature, medication handling, and safe disposal of human waste.

Additional updates to the report to ensure compliance with *The Residential Services Act, 2019*, and *The Residential Services Regulations* included new or revised questions regarding resident support plan requirements, resident care requirements, safety equipment/features, rights and privileges of residents, medication and medical treatment, reportable serious incident, meals, personal records of residents, confidentiality, criminal record checks; and maintenance of care facility.

While undertaking this review to include legislative requirements, the ministry also added questions to the Program Standards Report related to the Agreement for Services and other policy requirements.
