That all the words after "That the Assembly" be deleted and the following be added:

"disagrees with the general budgetary policy of the government because the Premier and Cabinet have not fully implemented a growth agenda and Saskatchewan continues to fall further behind other provinces, losing population during an economic boom, and because this budget does nothing to help the average working family when the government has one billion dollars in extra revenue, and further, because there is no comprehensive plan or accountability for health care in the province when health care expenditures are almost half of the provincial budget, and this budget reflects an 80s style of record expenditures with a \$288.5 million increase in debt."

The debate continuing on the motion and the amendment, the Deputy Speaker interrupted proceedings and adjourned the Assembly without question put, pursuant to Rule 3(2).

**Mr. Dearborn asked the Government the following Question No. 766, which was answered by the Hon. Ms. Higgins:**

To the Minister Responsible for Saskatchewan Telecommunications Corporation: What internal controls are in place for the protection of privacy for SaskTel customers?

Answer:

SaskTel has in place both a Security Policy and a Privacy Policy. SaskTel's Security Policy covers all aspects of physical security and logical security for all of SaskTel's corporate assets. The Security Policy is designed to the industry ISO 17799 standard. This policy is used to safeguard personal information in SaskTel's possession, as well as protect all of our assets. SaskTel also has a Privacy Policy. This policy is based on the legislated standards described in Freedom of Information and

Protection of Privacy (FOIP) and on the 10 principles found in the CSA Model Code for the protection of personal information.

**Mr. Dearborn asked the Government the following Question No. 767, which was answered by the Hon. Ms. Higgins:**

To the Minister Responsible for Saskatchewan Telecommunications Corporation: Has SaskTel performed an audit of these privacy controls?

Answer:

During 2004, two specific Privacy audits were completed to assess Privacy Awareness and Privacy Readiness. The Privacy Awareness Audit was completed to assess the state of awareness in the organization in preparation for full compliance to the Privacy requirements set out for SaskTel. The Privacy Readiness Audit was completed in late 2004 to review the current state of readiness for full compliance to the Privacy requirements by December 31, 2004. Other internal audit work has been completed around systems security controls. This audit work is not always specific to Privacy controls, but systems security controls are necessary to ensure certain aspects of our Privacy requirements are met.

**Mr. Dearborn asked the Government the following Question No. 769, which was answered by the Hon. Ms. Higgins:**

To the Minister Responsible for Saskatchewan Telecommunications Corporation: What has been found as a result of any privacy audits performed by SaskTel?

Answer:

The two Privacy Audits completed during 2004 concluded that at the beginning of SaskTel's Privacy Program implementation that some lack of awareness existed around sources of privacy information and details of the Privacy code that SaskTel would be following by December 31, 2004. However, SaskTel responded to this concern by developing and delivering mandatory training to all employees as part of the Privacy Program implementation. The Readiness Assessment completed near year-end concluded that there was a high degree of confidence that SaskTel would meet its privacy requirements by December 31, 2004 and that some additional implementation would be required on certain aspects of the Privacy Program once the initial requirements were implemented.
