WRITTEN QUESTIONS

The following question was given notice on day no. 6 and is to be answered by day no. 11:

1. Question no. 41 (Ms. Wilson):

To the Premier of Saskatchewan, Executive Council, and the Minister of SaskBuilds and Procurement, re: Digital ID Authentication Council of Canada (DIACC), on its website, the Digital ID Authentication Council of Canada has a stated goal that (quote): “The (federal) government work with provincial and territorial partners and Immigration, Refugees and Citizenship Canada to ensure that all Canadians have access to an ISO-compliant government-issued digital ID credential with economy-wide utility by December 2022.” DIACC also states that, “By solving challenges and leveraging opportunities, Canada has the chance to secure at least three per cent of unrealized GDP or \$100 billion of potential growth by 2030. Seizing this opportunity is a must in a digital society as we work through the COVID pandemic challenges.” In the last year, Saskatchewan people have made it abundantly clear that they do not want a centralized Digital ID system. A Centralized Digital ID is not to actually help people, but to profit off their backs through complete digital control of their lives. China is a perfect example of how this is already in effect; (a) is Saskatchewan still a member of the Digital ID Authentication Council of Canada; (b) is the government planning to implement an ISO-compliant government-issued digital ID credential with economy-wide utility as described by DIACC by December 2022 or by any other date; if yes, (c) through what avenues did the Government of Saskatchewan obtain the consent of the people to impose this invasive scheme upon them, and (d) will the government allow the people of Saskatchewan to have their say on this issue prior to implementation via a binding plebiscite or referendum?
