Re: Surplus Property Sales

At the February 26, 2020 appearance before the Standing Committee on Public Accounts, the Ministry of Central Services was asked to confirm any surplus property sales in 2019-20 up to the meeting date. There were no property sales that closed in 2019-20 prior to the meeting date.

In light of the committee's interest in sales activity during the 2019-20 fiscal year, we can report that one sale did conclude after February 26, 2019. The sale was for a 1.95-acre parcel that is considered part of the Valley View property, but surveyed as a separate parcel. The ministry accepted a \$10,000 offer for this parcel (as part of the December 2019 RFP process) and the transaction closed on March 10, 2020.

Per the Chair's comment at the meeting, I leave it to you to pass along this information to the committee members.

If you have any further questions, please do not hesitate to contact me. Thank you.

A handwritten signature in blue ink that reads "Mike Carr".

Mike Carr
