Requested Follow-up Information

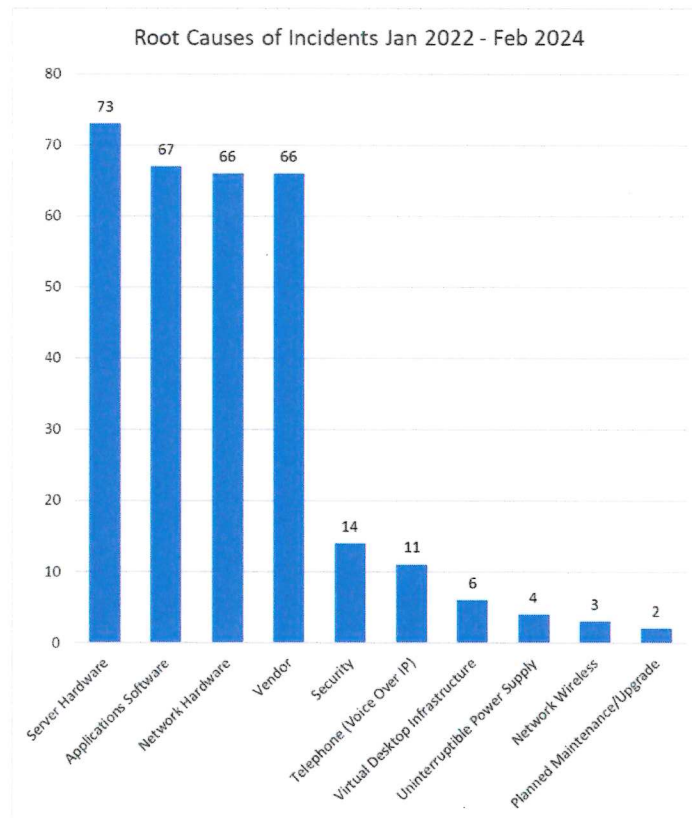

LEGISLATIVE ASSEMBLY  
APR 8 2024  
PROCEDURAL SERVICES

eHealth Saskatchewan  
Chapter 1 – eHealth Saskatchewan

- **What is the total cost of the legal service for the SHA/eHealth service level agreement?**
  - Since 2017-18 eHealth has spent \$342,809 for legal services related to the Saskatchewan Health Authority (SHA)/eHealth service level agreement.

*(Hansard Verbatim Report No. 27 February 27, 2024, page 576)*

- **Is there any documentation to provide the number of periods where systems were unavailable as well as the reason, dating back to the last time these recommendations were presented?**
  - Between January 2022 and February 2024, there were 312 incidents in which systems weren't available.
  - Below is a summary chart of the root cause of the incidents.

*Security Incidents: These are systems acting as expected to protect the health system against potential threats. These outages were not a result of any successful breaches, but safety measures to avoid a successful breach.*

*(Hansard Verbatim Report No. 27 February 27, 2024, page 577-578)*

## **Chapter 15 – Securing Portable Computing Devices**

- **What are the number of devices that can access the eHealth IT network? Broken down by smartphone, tablet, laptop, other types of devices that would be accessing this network. Please include the value of the lost devices, was anything recovered?**
  - We estimate that there are approximately 6,000 smartphones and tablets across the health system that can connect to the health network. A large number of those device contracts are managed by the SHA, and a portion are managed by eHealth Saskatchewan.
  - eHealth Saskatchewan also supports about 10,200 laptops for the health system that can connect to the health network. These represent portable devices that can connect to the health network.
  - Since January 2022, 6 laptops and 3 cellphones managed by eHealth were reported as lost or stolen. The approximate value of a laptop is \$1,500 and the approximate value of a cell phone is \$700.
  - There have not been any reports that the lost or stolen devices were recovered.

*(Hansard Verbatim Report No. 27 February 27, 2024, page 579-580)*

- **Is there any deviance from those ISMS initially awarded tenders in terms of scope or the value of the contracts?**
  - ISMS is an Internal Security Management System Program based on ISO 27001 and does not have any direct contracts.
  - eHealth purchased ISMS Online, an online software platform that organizes the supporting information and documents for a formal ISMS program. There was no change in the scope or value of the contract.

*(Hansard Verbatim Report No. 27 February 27, 2024, page 581)*

## Saskatchewan Health Authority

### Chapter 5 – Purchasing Goods and Services

- **How many contracts have been tendered from February 2022 to present as well as whether or not all of these had the appropriate information posted on SaskTenders? Please provide a list of tenders.**
  - From February 2022 to current, SHA has posted 209 public procurements (refer to Appendix A for the list of tenders) with 3% (6 items) that currently do not have posted award information/result status on SaskTenders.
  - We are working on closing out the remaining 3% that are outstanding.

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 585-586)*

- **In chapter 5 of the auditor's report, it's noted that between April 1st, 2020, and February 28th, 2022, the Authority received two complaints. And one complaint was resolved, and the other complaint was still in the process of being resolved. Please update committee on the status of that second complaint, as well as detailing kind of what that resolution process looks like, whether there are any current complaints, and what, if any, costs are associated with those.**
  - The complaint was in response to a request for proposal (RFP) for leasing office space.
  - The SHA completed the review process on the RFP based on a review of all required documents and the evaluation steps and outcome. It was determined that the SHA procurement process was followed resulting in the awarded outcome.
  - The complaint was moved to the Ministry for further review. As of the time of the Auditor's review, the matter was still under review. The complaint has been closed.
  - SHA does not have any open complaints currently.
  - SHA does not request any monetary amount to open a complaint process.

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 586)*

- **On page 78 of the auditor's report (Chapter 5 – 2022 Vol.1), the auditor identifies a tender worth \$726,000 where the proper evaluation support didn't accompany it. What was that tender for and who was it with?**
  - The tender in question was for the Regina General Hospital Building Envelope Renewal - K Block Roof Replacement.
  - The tender was open from July 7 to August 6, 2020, and was awarded to Quorex Construction on September 2, 2020.

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 586)*

**Chapter 12 – Filling Hard-to-Recruit Healthcare Positions**

- **Which facilities in the province of Saskatchewan are experiencing service disruptions due to workforce challenges or vacancy rates related to hard-to-recruit positions?**
  - The following facilities were on service disruption March 10, 2024, due to workforce challenges or vacancy rates with hard-to-recruit classifications:

**Service Disruption List – March 10<sup>th</sup>, 2024**

<b>Facility</b>	<b>Community</b>
Broadview Hospital	Broadview
Galloway Health Centre	Oxbow
Herbert & District Integrated Healthcare Facility	Herbert
Kamsack Hospital	Kamsack
Kipling Integrated Health Centre	Kipling
Radville Marian Health Centre	Radville
Redvers Health Centre	Redvers
Wilkie and District Health Centre	Wilkie
Wolseley Memorial Hospital	Wolseley

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 590-591)*

- How many full-time employees of each profession have accessed the rural and remote recruitment incentive? If you have information as to where those people are and how many FTEs in what positions (breakdown by location and classification).

- Please see below the table for the rural and recruitment incentives by location and occupation:

Communities	CCA	CXLT	LPN	MLA	MLT	MRT	NP	RN	RPN	Total

(Hansard Verbatim Report No. 27, February 27, 2024, Page 591)

**Chapter 18 – Delivering Accessible and Responsive Ground Ambulance Services in SW SK**

- **Is the standard of 30 minutes response time, being met? And I suppose, what percentage of the time is it met? How many calls are received in which that target is actually achieved.**
  - The table below shows the volume of calls and the number and percentage that were compliant with the response time standards.
  - Information for SW Saskatchewan, for the period April 1, 2023, to February 29, 2024:

Saskatchewan Health Authority					
Emergency Events Dispatched AND Arrived					
Southwest Saskatchewan					
April 1, 2023 to 05:00 February 29, 2024					
Service Area			# Dispatched	# Compliant	% Compliant
All Rural Areas (less than 30 min)			1,444	995	68.91%
Total Swift Current Urban			909	815	89.66%

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 593)*

**Chapter 20 – Treating Patients at Risk of Suicide in NW SK**

- **On page 193 of the auditor’s report in figure 1 (Chapter 20 – 2023 Vol. 1), there are target time frames for out-patient psychiatry services. Are those response targets being met now? And I suppose looking back, were they met in 2023, and what percentage of patients are being assessed within those targets for each category?**
  - Target time frames are currently not being met.
  - Due to the temporary disruption of outpatient clinics in 2023, performance against these targets was not tracked. Patients presenting with urgent and emergent needs were provided with same day appointments/consultations throughout the year. However non-urgent /non emergent appointments were not met in 2023.
  - Outpatient clinics resumed March 18, 2024. Information on performance against targets will be collected monthly.

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 599)*

- **The wait times children and youth experience in the Northwest, and any point-in-time numbers that are available for how many kids, how many children and youth are waiting for services.**
  - The triage access to child and youth mental health services in the Northwest for 2023 are as follows:
    - 80% of children assessed as Mild in the Northwest were seen within 30 business days.
    - 77% of children assessed as Moderate in the Northwest were seen within 20 business days.
    - 71% of children assessed as Severe were seen within 5 business days.
    - 78% of children assessed as Very Severe were seen within 24-hour period.
  - Where services were not provided within the defined benchmark targets above it was exclusively related to limited resource capacity during that time.
  - As of March 7, 2024, there are 35 Children and youth waiting for their first appointment based on the Triage levels above. This is not considered a waitlist but is rather a patient waiting for their initial scheduled appointment within the defined provincial benchmarks.

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 600)*

- **Can you speak to whether the Northwest is still experiencing staffing challenges in mental health-related positions? Can you provide data on existing staff vacancies for various mental health-related positions in the Northwest (e.g. psychiatry, registered psychiatric nurses, counsellors, etc.)?**
  - There are a total of 206 mental health-related positions in the Northwest. Of these, 23 are vacant in March 2024.
  - The position vacancies include:
    - Psychiatric Nurses – 5
    - Addictions Counselors – 5
    - Social Workers – 4
    - Psychiatrists – 2
    - Psychologists – 2
    - Mental Health Therapists/Assessor Coordinators – 5

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 600)*

- **Where are folks accessing these videoconferencing services from? Do you have information in terms of how many people have accessed this service specifically in the Northwest?**
  - Telehealth/videoconferencing services had been suspended in 2023 due to the limited capacity in psychiatry. Capacity issue have since been addressed through successful recruitments.
  - Telehealth/videoconferencing services will resume in late April 2024, covering the greater NW.
  - Refer to Appendix B for people have accessed this service specifically in the Northwest in 2021 and 2022.

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 600)*

- **How many people in the Northwest are accessing this and how the SHA plans on measuring the success of this service as it pertains to obviously increasing the mental health supports for people in the Northwest and reducing suicides?**

- Telehealth services have historically been tracked for attendance, however, because of the Psychiatry shortage clinics were suspended in 2023. Consequently, tracking of attendance did not occur during this time.
- Telehealth service resumption in late April 24 will include monitoring and tracking attendance and patient satisfaction with services.
- Data gathering including satisfaction surveys are to commence upon resumption at all clinic sites.
- It furthers promotes access for those in remote and northern areas.

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 600)*

- **The year-by-year data of annual rate of suicides in SK?**

- The SHA has an arrangement with the Saskatchewan Coroner’s Office to access that information biannually.
- Data will be obtained bi-annually beginning July 2024
- Prior data on suicides in the NW obtained was from 2015 – June 2023:

**Year and Number of Suicides in the Northwest:**

Year	Number of Suicides
2015	14
2016	13
2017	20
2018	28
2019	20
2020	24
2021	27
2022	22
2023 (up to April)	9
<b>Total</b>	<b>177</b>

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 601)*

- **Is the SHA able to look at that information that comes from the coroner’s office, in relation to death by suicide statistics, and identify how many of those people were from the Northwest? Is that a measure that’s available to the SHA in order to tell how many people specifically in the Northwest are dying by suicide?**

- The data from the Coroner’s office is specific to the NW and is detailed by community, gender, race, etc.
- There is a lag time for receiving the data but generally the SHA can access the most recent information related to completed suicides within six months.
- Information for the three-year period 2018 to 2021 can be accessed at: <https://www.saskatchewan.ca/government/government-structure/boards-commissions-and-agencies/saskatchewan-coroners-service#information-you-might-be-looking-for>

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 601)*

**Chapter 19 – Efficient Use of MRIs in Regina**

- **Is it possible to provide the committee with updated data on the number of patients currently waiting to be scheduled for a Regina MRI by priority level as seen in figure 1 on page 203 (chapter 19 – 2022 Vol.1), but for, of course, the years 2022 and 2023?**
  - Please see below the table for the number patients waiting to be scheduled for an MRI by priority level in Regina:

**As of November 24,  
2022:**

	7- 30 Days	30-90 Days	90+ Days
Level 2 (Urgent)	255	444	301
Level 3 (Semi-Urgent)	480	1007	1965
Level 4 (Non-Urgent)	166	308	1207
Total	901	1759	3473

**As of December 1,  
2023:**

	7- 30 Days	30-90 Days	90+ Days
Level 2 (Urgent)	201	414	182
Level 3 (Semi-Urgent)	400	983	2403
Level 4 (Non-Urgent)	81	202	800
Total	682	1599	3385

*(Hansard Verbatim Report No. 27, February 27, 2024, Page 603)*
