## **Presentation to the Special Committee on Traffic Safety**

Greg Wallin, Administrator for the R.M. of Browning No. 34 and Town of Lampman, on behalf of the R.M. of Browning No. 34, R.M. of Coalfields No. 4 and the Town of Lampman.

We have met with the Honourable Donna Harpauer and suggested to meet with this Committee. The R.M.'s and Town are currently faced with the same issues that the Committee is dealing with including increased traffic due to the busy oilfield, therefore, leading to increased speed, failure to obey traffic signs and distracted driving.

We have met with the RCMP and applied for an enhanced RCMP service.

We feel that this is an ideal situation for all of us to partner together to form a pilot project for this purpose. As our R.M.'s and Town are interested in supplying an enhanced service to slow traffic, increase awareness at intersections to save lives and decrease accidents which is a win-win situation for all of us.

Thank you,

Greg Wallin  
Administrator
