Narrative

It was a pretty quite year in Saskatchewan. There were significant calls for poly drug use and the number of no calls appears higher due to some training evaluation on non impaired subjects for training and some Cannabis users that we not impaired by time of the evaluations.

Several DRE's will be up for re certification in October 2013 and it is anticipated that there will be some eval nights in Regina and Saskatoon.

Although there were no new courses for DRE we were able to finalized certification for Cst. Russ Temple RPS from the 2011 course in Regina.

There were three SFST courses held at RCMP Centralized training for RCMP and Municipal members. The later course included a Train the Trainer course for SFST and we have 8 new instructors for the province.

Just some highlights from the year

*February 2012 we held a work shop for Regina Crowns for the DRE program
September 2012 I was requested to present information on the DRE program for SGI (Saskatchewan Government Insurance) for the Drive without Impairment program facilitators.*

October 2012 8 hours of Re-Cert was conducted at RCMP F Division Centralized Training with
